|      |   |  |
|------|---|--|
| GET  | /media/ <b>media-id</b> /comments                       | *** Get a list of recent comments on a media object. |
| POST | /media/ <b>media-id</b> /comments                       | *** Create a comment on a media object.              |
| DEL  | /media/ <b>media-id</b> /comments/<br><b>comment-id</b> | *** Remove a comment.                                |

**GET** /media/ **media-id** /comments

`https://api.instagram.com/v1/media/{media-id}/comments?access_token=ACCESS-TOKEN` **RESPONSE** ▾

Get a list of recent comments on a media object.  
The `public_content` scope is required for media that does not belong to the owner of the `access_token`.

**REQUIREMENTS** \_\_\_\_\_

Scope: `public_content`

**PARAMETERS** \_\_\_\_\_

**ACCESS\_TOKEN** A valid access token.

**POST** /media/ **media-id** /comments

`curl -F 'access_token=ACCESS-TOKEN' \`  
`-F 'text=This+is+my+comment' \`  
`https://api.instagram.com/v1/media/{media-id}/comments` **RESPONSE** ▾

Create a comment on a media object with the following rules:

- The total length of the comment cannot exceed 300 characters.
- The comment cannot contain more than 4 hashtags.
- The comment cannot contain more than 1 URL.
- The comment cannot consist of all capital letters.

The `public_content` scope is required for media that does not belong to the owner of the `access_token`.

**REQUIREMENTS** \_\_\_\_\_

Scope: `comments, public_content`

**PARAMETERS** \_\_\_\_\_

**ACCESS\_TOKEN** A valid access token.

**TEXT** Text to post as a comment on the media object as specified in `media-id`.

**DEL** /media/ **media-id** /comments/ **comment-id**

`curl -X DELETE https://api.instagram.com/v1/media/{media-id}/comments/{comment-id}?access_t` **RESPONSE** ▾ EN

Remove a comment either on the authenticated user's media object or authored by the authenticated user.  
The `public_content` scope is required for media that does not belong to the owner of the `access_token`.

**REQUIREMENTS** \_\_\_\_\_

Scope: `comments, public_content`

**PARAMETERS** \_\_\_\_\_

**ACCESS\_TOKEN** A valid access token.
